E-LEARNING: ANYWHERE ANYTIME

Mobile. Micro. Social. Personalized.

Paatham offers a simple, and easy learning experience for students an experience designed to increase adoption, engagement and effectiveness. With Paatham students can access learning anytime, anywhere and you can deliver targeted academic programs just the way they want them right at the time of need.

Single-sign On & Integration

Paatham helps you take classes to next level without having to manage more than one system. Paatham integrates seamlessly with your existing tools. And since it's a single platform that's easy to adopt, teachers and students need less time training to use it.
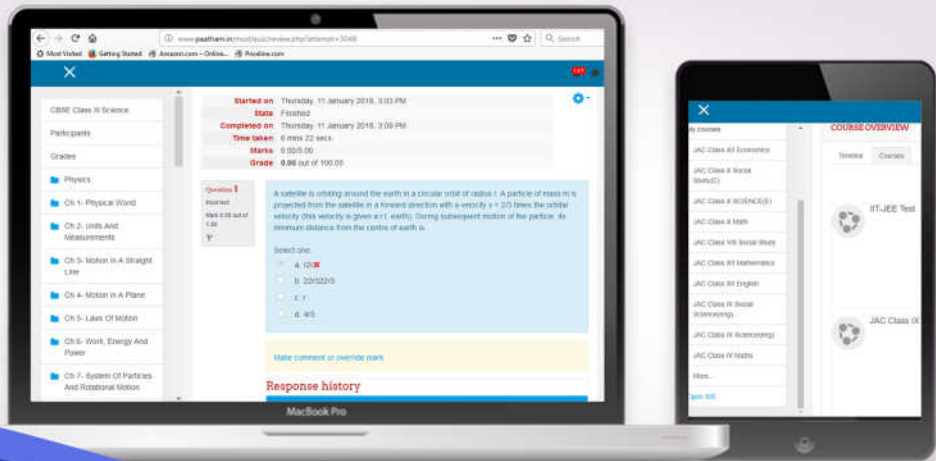

Virtual Classrooms

Extend your instructors reach with virtual lessons that can be accessed anywhere anytime through Paatham.

Online and Self-Paced

Put learning into the hands of your students when they need it or when they can fit it into their day. Whether it's a bite of micro-learning or a longer, multi-part course, Paatham makes it easy for you to offer content that your students can consume on their schedule. Your young learners can launch inline content for a seamless, online experience with no plug-ins or popups.

E-LEARNING: EASY & ENRICHING

From formal to informal. Video to virtual. Paatham's offers learning programs - with industry leading extensibility and flexibility, and a complete set of integrated learning capabilities, you can build learning programs that suit your culture, and evolve as your needs change and your students community matures.
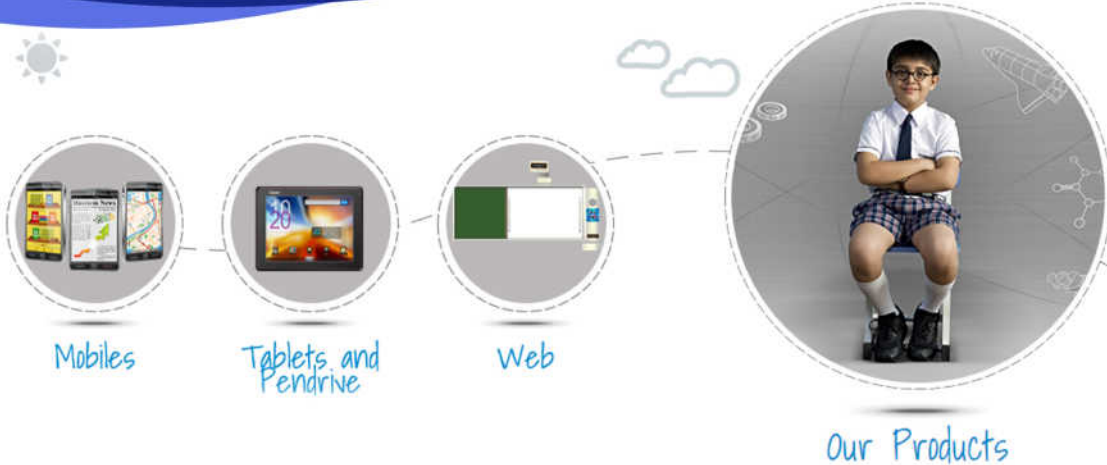

Video

Quickly create and import inline videos to offer on their own or track as part of a class. Free internet videos and materials can be bundled with tests to assess students knowledge retention, or added for simple, as-needed reference.

Informal and Collaborative

Students learn by asking and answering questions, sharing experiences, and referencing resources as they need them. Every time they search the web for an answer or ask a colleague a question, you're engaging in collaborative or social

PARTICIPATE IN YOUR CHILD'S LEARNING JOURNEY

- Ask your child to take free tests online and assess their knowledge
- Stay up-to-date with your child's progress

As sponsors of your child's education parents must play important roles

- Access Child's performance reports
- Browse Child's Course Curriculums
- Communicate with course instructors and principal
- Compare Child against rest of the class
- Track Child's improvement

Engaged in their child's learning journey

Teachers can choose which tasks or learning resources they want to share and give parents the tools they need to support their child's learning. Parents can see the progress their child is making, without needing to wait until parents' evening.

Effortlessly interact with the school

Paatham is parents' go-to place for school trip forms feedback surveys and suggestions, fast-tracking any school-parent engagement.

Receive school notices and announcements

Crumpled letters in the bottom of schoolbags are a thing of the past. With Paatham teachers and schools know that they are getting important information to parents. Teachers and schools are in control of what gets shared.

DIGITAL INDIA: GREEN INDIA

Paatham provides impetus to the Digital India vision and aims to enrich capabilities of various Governments by providing them platform to make digital learning content accessible.
